## **Alpha Intern Internship Program Requirements:**

### **1. Project Allocation:**

- Interns are assigned projects categorized into three levels: easy, medium, and hard.
- Each level contains four projects.

### **2. Completion Criteria for Experience Letter:**

- Interns must complete at least two projects from each section (easy, medium, hard).

### **3. Internship Completion Certificate Requirements:**

- To be eligible for the internship completion certificate, interns must:
  - Complete at least one project from each section.
  - Participate in two project presentations: one offline and one online.

### **4. GitHub Repository:**

- Interns are required to create a GitHub repository named "Alpha Intern Internship Program."
- They must push all project code to this repository.
